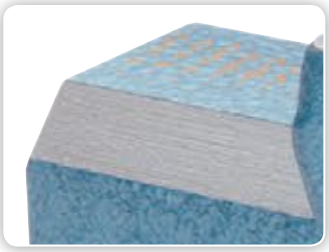
ANATOMY OF THE ORIGINAL PEDDINGHAUS



1 Measuring scale.

2 Long machined and surface guide bar for maximum precision.

4 Possibility to attach snap-on jaws, clamping securely and safely any type of workpiece. Superiors come with build-in pipe Jaws.

3 Handle with changeable anti-pinch rubber rings to avoid accidents, increase lifetime and reduce noise.

5 Large hardened anvil for straightening and other forming work.

6 Hardened and serrated jaws for maximal durability. The Parallel Jaw Alignment System provides precise clamping and longer servise life.

7 Removable steel spindle nut. Rolled twin start Acme thread for precise operation and longevity.

8 Spindle housing protecting the nut thread to be exposed to abrasive dust and other external materials.

9 Heat treated self-impeding adjustable guiding guarantee precise adjustments even after years.

GERMAN ORIGINAL SINCE 1903

RIDGID-PEDDINGHAUS BENCH VISE IS THE PERFECT TOOL FOR THOSE PROFESSIONALS WHO RELY ON THEIR BENCH VISE ON A DAILY BASIS.

Vises
